Elementary School**

**Dunwoody 3<sup>rd</sup> school,  
around 1935  
Built of brick**

Around 1935, Dunwoody's second wooden school was demolished, and a new brick school was built for Dunwoody in the same spot as the previous school. This photograph was taken in 1944 for Nettie Austin's scrapbook. (Courtesy of the Austin family.)

# The Dutch House c.1940 at Dunwoody Elementary School

One of the favorite memories of people who attended Dunwoody School in the 1940s is the Dutch House. The small wooden house was built by Glenn Greer Austin, Nettie Austin's husband. Glenn was known to build many wooden toys for the school, as well as anything else the school needed,

so when it was time to study Holland, he built the Dutch House. He also built a small windmill and wooden shoes to make the experience complete. (Courtesy of the Austin family.)

# Before Duwoody had a High School The kids attended Chamblee High School

This graduation picture from Chamblee High School includes Carlton Renfroe, Esther Renfroe, and Jeff Porter. (Courtesy of the Renfroe family.)
